General Interests

Enjoy playing cricket, basketball, listening to music, traveling and meeting people and being interested in photography, comes in handy on these occasions. One of my pastimes is South Indian style cooking.

Special Interest

Very much obsessed with the continuous quality improvement. Have been instrumental in obtaining NABL accreditation (ISO 15189, details can be seen at www.nabl-india.org) to our Central laboratory serving 1500 bedded tertiary care University attached teaching hospital.

Played a vital role in the preparation of our hospital for the JCI and NABH accreditation. Led the teaching team to disseminate the International Patient Safety Goals and the JCI & NABH standards to all our three thousand staff. Sri Ramachandra Medical Centre is the first teaching hospital in India to obtain the prestigious JCI accreditation.

Love teaching and making complex things easy to learn by breaking them into understandable concepts and processes
